

HALLMARK ELECTRA LTD

Specialist Fencing Contractor working across the midlands on high security compounds requires;

- FABRICATOR • FENCING OPERATIVES

A Fabricator based at the workshop in Leigh Sinton. The successful applicant must have experience with MIG and TIG welding, and able to work from drawings with minimum supervision.

Fencing Operatives are needed to join our operations team. Training will be given but a background in general building skills would be an advantage. The job entails working across the midlands and may require staying away from home, in which case expenses are paid.

A clean driving licence is essential for both roles, and a first aid certificate and CSCS card are desirable.

Phone 01886 830033 for more details or see our website www.hallmark-electra.co.uk for an application form.
